

# Management Discussion & Analysis

**2008/2009**

Edmonton – 30 September 2009.

## Forward-looking Statements

Certain statements in this report may be deemed to be forward-looking statements within the meaning of the federal and provincial securities laws. Although management believes the expectations reflected in these forward-looking statements are based on reasonable assumptions, forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause actual results and performance of the Company to be materially different from any future results and performance expressed or implied by such forward-looking statements. Among these risks and uncertainties are:

- changes in the markets in general economic conditions;
- the extent, duration and strength of any economic recovery in the markets in which the company operates;
- changes in the Oil & Gas drilling market;
- the cost and availability of debt and equity financing;
- our ability to realize anticipated cost savings from our internal initiatives and to otherwise create and capture benefits of scale;
- our ability to obtain at reasonable cost, adequate insurance for catastrophic events, such as earthquakes, hurricanes and terrorist acts;
- changes in interest rates;
- other risks and uncertainties.

The forward looking statements should not be read as guarantees of future performance or results, and no assurance can be given that the expectations will be realized. The Company assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events. Without limiting the foregoing, the words “believe”, “expect”, “anticipate”, “intend”, “estimate”, “plan” and similar expressions identify forward-looking statements.

## Summary of activities

Despite the recession in the general economy we have managed to grow our sales by 51% over the 2008 fiscal year. While we expect to be able to grow our sales again in the 2010 fiscal year, it is unlikely that we will be able to achieve the same percentage growth as 2007 and 2008 were poor performance years. Sales growth in 2009 has been driven by changes we made in the sales/marketing department. Our current backlog of work will allow us to maintain the higher sales levels through the second quarter of the 2010 fiscal year.

We continue to look for skilled engineers with drilling rig design experience to expand our capabilities. Recruiting costs are expected to remain high through the next fiscal year. Advertising and promotion expenses have risen significantly and are mainly attributable to increased recruiting advertising. Salaries and benefits have risen as the experience levels of our staff have increased. We also have one employee more than at this time last year.

On the mergers and acquisitions front we have identified a suitable takeover candidate in the US and continue to perform the due diligence investigations. If everything continues to check out we should be in a position to make a commitment in the second quarter of fiscal year 2010.

## Selected Annual Information

	Year ended June 30, 2009	Year ended June 30, 2008	Year ended June 30, 2007	Year ended June 30, 2006
<b>Total Revenues</b>	2,274,494	1,501,239	1,481,851	1,742,538
<b>Income/(loss) before discontinued operations and extraordinary items</b>	312,330	(77,992)	(28,047)	110,433
<b>Basic income/(loss) per share</b>	.03	(0.01)	(0.003)	.01
<b>Diluted income/(loss) per share</b>	.03	(0.01)	(0.003)	.01
<b>Net income/(loss)</b>	312,330	(77,992)	(28,047)	203,284
<b>Basic income/(loss) per share</b>	.03	(0.01)	(0.003)	.02
<b>Diluted income/(loss) per share</b>	.03	(0.01)	(0.003)	.02
<b>Total Assets</b>	834,749	717,839	537,409	726,360
<b>Total long-term financial liabilities</b>	365,000	373,968	326,907	335,691

Revenue from our engineering consulting rose steadily through the 2006 fiscal year. The end of the 2007 fiscal year and the beginning of the 2008 fiscal year, the Oil & Gas drilling sector went through a major pull back. The Oil companies radically reduced the drilling activity in an attempt to force the drilling contractors to reduce prices. This had an effect on our business which is dependant to a large extent on the activity in the Oil & Gas drilling sector. While activity in the Oil & Gas drilling sector has not significantly increased, toward the end of the 2008 fiscal year and the beginning of the 2009 fiscal year, investment in new drilling rig designs has returned to near normal levels. This pullback is a normal part of the business cycle for the Oil & Gas drilling sector. Sales in the 2009 fiscal year have been significantly improved by changes we made in the sales/marketing department.

## Summary of Quarterly Results

	For the 3 months ended 30 June 2009	For the 3 months ended 31 March 2009	For the 3 months ended 31 Dec. 2008	For the 3 months ended 30 Sept. 2008
Total Revenues	\$ 610,879	622,114	530,496	511,005
Income/(loss) before discontinued operations and extraordinary items	\$ 163,694	43,071	43,177	62,388
Basic and diluted income / (loss) per share	\$ .02	0	0	.01
Net income/(loss)	\$ 163,694	43,071	43,177	62,388
Basic and diluted income / (loss) per share	\$ .02	0	0	.01

	For the 3 months ended 30 June 2008	For the 3 months ended 31 March 2008	For the 3 months ended 31 Dec. 2007	For the 3 months ended 30 Sept. 2007
Total Revenues	\$ 372,155	410,188	375,809	343,087
Income/(loss) before discontinued operations and extraordinary items	\$ (1,213)	27,334	(31,080)	(73,033)
Basic and diluted income / (loss) per share	\$ 0	0	0	(.01)
Net income/(loss)	\$ (1,213)	27,334	(31,080)	(73,033)
Basic and diluted income / (loss) per share	\$ 0	0	0	(.01)

The variation in sales is due to the oil & gas sector economic activity. The engineering revenues have been significantly impacted by the slow down in drilling activity during the 2007/2008 fiscal year. The 2008 and 2009 sales have been significantly improved by changes in our sales/marketing department.

### Liquidity

The company has positive working capital. Over the next year the company expects to meet all cash requirements from cash flow. While the company has a significant amount of its receivables invested in a small number of clients, these funds are largely attributable to insurance clients and the insurance company has reserves allocated to pay these accounts. Management believes it has appropriately managed the company's credit risk.

### Capital Resources

The company has a \$250,000.00 line of credit available for any emergent capital outlays or other cash flow requirements. As of the end of June, this line of credit is not being used. Capital expenditures planned for the coming year are expected to be covered out of operating cash flow and leveraging existing assets. However the company has engaged a mergers and acquisitions consultant to assist us in finding a suitable takeover candidate. Should a suitable candidate be found, the company may go to the market to raise a portion of the cost of the take-over.

## Transactions with related parties

During the year the Company had business transactions with corporations controlled by certain directors of the Company. These transactions, which were at market prices, are as follows:

	For the twelve months ended 30 June 2009	For the twelve months ended 30 June 2008
Payment of rent to 262233 Alberta Ltd.	\$ 90,000	\$ 90,000
Due to directors, non-interest bearing, unsecured	\$ 166,911	\$ 167,682
Due to corporations controlled by directors, non-interest bearing, unsecured	\$ 198,089	\$ 206,286
	<hr/>	<hr/>
	\$ 365,000	\$ 373,968

Loans payable to related parties in the amount of \$365,000 (2008 - \$373,968) have no fixed terms of repayment and the parties waived their right to receive any repayment in the current fiscal year, therefore these amounts have been classified as long term.

Included in trade accounts payable is \$3,005 (2008 - \$1,863) owing to a director.

## Equity Transactions

During the year 50,000 stock options were cancelled with an exercise price of \$0.10; no options were granted.

## Off Balance Sheet Transactions

**Top drive manufacture:** The Technology Licensing Agreement between Farr Canada, a division of McCoy Corporation (MCB: TSX) and Allan R. Nelson Engineering (1997) Inc. provides for royalty payments to Allan R. Nelson Engineering (1997) Inc. in relation to the licensing for the manufacture and sale of the top drives based upon designs prepared by Allan R. Nelson Engineering (1997) Inc.

Farr Canada has hired a dedicated product manager who is marketing the top drive and has established a facility for manufacturing top drives. Top Drive sales typically have a long lead time. We anticipate that sales will start when the economy starts to show signs of growth for the oil & gas drilling sector.

## Financial Instruments

The Company's financial instruments consist of cash, accounts receivable, accounts payable and accrued liabilities, and advances from related parties.

### Fair value

The carrying amount of the Company's cash, accounts receivable, accounts payable and accrued liabilities approximate their fair value due to the short-term maturities of these instruments.

The fair value of the advances due to related parties are less than carrying value, as the amounts are non-interest bearing. As the amounts have no terms of repayment, the fair value cannot be calculated with any degree of certainty.

#### Credit risk

The Company is exposed to credit risk through trade receivables and work in progress. In the normal course of business, the Company evaluates the financial condition of its customers on a continuing basis and reviews the credit worthiness of all new customers. Management assesses the need for allowances for potential credit losses by considering the credit risk of specific customers, historic trends, and other information.

#### Financial Instruments

The Company is subject to a concentration of credit risk with respect to \$ 107,604 in accounts receivable from the Company's three largest customers at June 30, 2009.

#### Interest rate risk

Interest rate risk is the risk that the value of a financial instrument might be adversely affected by a change in the interest rates. In seeking to minimize the risks from interest rate fluctuations, the Company manages exposure through its normal operating and financing activities. The Company is exposed to interest rate risk primarily through its floating interest rate operating line. At June 30, 2009 the operating line was not drawn on and therefore fluctuations in interest rate would not affect the results of the Company.

#### Market risk

The Company is exposed to market risk through its reliance on the oil industry. Management believes the risk faced by the Company with regard to market risk is an acceptable risk faced in the ordinary course of business.

### **Future Accounting Standards**

The Canadian Institute of Chartered Accountants (CICA) has issued several new accounting standards which will affect the Company's financial statements in subsequent fiscal years.

#### a). Convergence with International Financial Reporting Standards (IFRS)

The Accounting Standards Board ("AcSB") establishes financial accounting and reporting standards for use by Canadian entities. It also participates in the development of internationally accepted accounting standards. The AcSB is accountable to the Accounting Standards Oversight Council, an independent body established in September 2000 by the CICA. On February 13, 2008, the AcSB announced that the use of International Financial Reporting Standards ("IFRS") is required for fiscal years beginning on or after January 1, 2011 for publicly accountable profit-oriented enterprises. IFRS will replace Canada's current GAAP. Entities will be required to provide comparative IFRS information for the previous fiscal year. The Company is evaluating the impact of the adoption of IFRS. Management recognizes the new accounting policies, and has investigated their impact on the company financial statements. The transition to IFRS on June 30, 2012 is expected to proceed smoothly.

#### b) Business Combinations, Consolidated Financial Statements and Non-Controlling Interest

In January 2009, the CICA issued CICA Handbook Section 1582, Business Combinations ("Section 1582"), Section 1601, Consolidations ("Section 1601"), and Section 1602, Non-Controlling Interests ("Section 1602"). These sections replace the former Section 1581, Business Combinations, and Section 1600, Consolidated Financial Statements, and establish a new section for accounting for a non-controlling interest in a subsidiary.

Section 1582 establishes standards for the accounting for a business combination, and states that all assets and liabilities of an acquired business will be recorded at fair value. Obligations for contingent considerations and contingencies will also be recorded at fair value at the acquisition date. The standard also states that acquisition-related costs will be expensed as incurred and that restructuring charges will be expensed in the periods after the acquisition date. It provides the Canadian equivalent to IFRS 3, Business Combinations (January 2008). The section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011.

Section 1601 establishes standards for the preparation of consolidated financial statements.

Section 1602 establishes standards for accounting for a non-controlling interest in a subsidiary in the preparation of consolidated financial statements subsequent to a business combination. It is equivalent to the corresponding provisions of IFRS International Accounting Standards (“IAS”) 27, Consolidated and Separate Financial Statements (January 2008).

Sections 1601 and 1602 apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Earlier adoption of these sections is permitted as of the beginning of a fiscal year. All three sections must be adopted concurrently. Management has evaluated these changes and has determined that there should be no problems implementing them.

## **Risk and Uncertainty**

The following factors among others could cause our actual results to differ materially from those projected in our forward-looking statements:

- The effects of fluctuations in interest rates or currency values
- The effects of war or terrorist activities
- The effects of disease or illness on local, national or international economies
- The effects of disruption to public infrastructure
- The effects of disruptions to our internal IT infrastructure
- The effects of industry or worldwide economic or political conditions
- The effects of regulatory or statutory developments
- The effects of competition in the geographic or business areas in which we operate
- The effects of undetected fraud
- The actions of management and staff
- Potential liability claims as a result of the work we perform
- Credit risk associated with accounts receivable
- The effects of technological changes.

Investors and the public should carefully consider these factors, other uncertainties and potential events as well as the inherent uncertainty of forward looking statements when relying on these statements to make decisions with regards to ESTec. Except as required by law, we do not undertake to update any forward looking statements, whether written or verbal that may be made from time to time by the organization, or on its behalf.

## **Controls and Procedures**

The Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") have evaluated the effectiveness of the company's disclosure controls and procedures and assessed the design of the company's internal control over financial reporting as of June 30, 2009, pursuant to the requirements of Multilateral Instrument 52-109. Management has concluded that weaknesses exist in the segregation of duties.

Management is currently reviewing procedures to minimize these weaknesses as much as possible.

## **Other MD&A Requirements**

Additional information relating to ESTec Systems and its subsidiaries can be found on SEDAR at [www.sedar.com](http://www.sedar.com). Press releases announcing activities of the company will be posted on our web site [www.estec.com](http://www.estec.com).

On Behalf of the Board of Directors – September 30, 2009
