

MEDIA RELEASE:

ESTec announces the issuance of Director and Employee Stock Options

Edmonton, AB – February 07, 2008. ESTec Systems Corp. (ESE: TSX Venture Exchange) is pleased to announce it has issued a 350,000 incentive stock option grant to directors and employees of the company under its Rolling Stock Option Plan. The options have been issued in conformance with Toronto Venture Exchange regulations for stock options. The options are five year options with an exercise price of \$0.10 per share.

The Stock Options are being offered as an incentive to employees to enhance the value of the company and to enlist a long term commitment to the company from key employees.

ESTec Systems Corp.'s Rolling Stock Option Plan had been submitted for Exchange review and approval in September 2007 and was accepted for filing by the Toronto Venture Exchange on the 4th December 2007 after the Plan had received its annual approval from the shareholders at the company's Annual General Meeting on 23rd November 2007.

ESTec Systems Corp. is an Edmonton-based public company with an engineering division: Allan R. Nelson Engineering (1997) Inc. Allan R. Nelson Engineering is a group of professional engineers and technologists who carry diverse skills and a variety of professional backgrounds. They are Canada's leading forensic engineering firm, serving domestic and foreign markets, in particular in the petrochemical, mining and drilling equipment industries, and also provide mechanical design engineering for their clients.
